

# MATH 430/630: Complex Analysis

**Instructor: Al Vitter**

406B Gibson Hall

[vitter@math.tulane.edu](mailto:vitter@math.tulane.edu)

862-3450

Office Hours: Tuesday 2-3:30pm or by appointment

**Text: Complex Analysis by T. Gamelin (paperback)**

**Time/Place: MWF noon-12:50pm in Gibson 400A**

<b>Grade: Test 1</b>	<b>20%</b>
<b>Test 2</b>	<b>20%</b>
<b>Homework</b>	<b>30%</b>
<b>Exam</b>	<b>30%</b>

**Test/Exam dates: Test 1 Friday, Oct. 8**

**Test 2 Friday, Nov. 9**

**Exam: Friday, Dec. 14, 8am-noon.**

**Homework:** Homework will be assigned and collected/graded every 1 to 2 weeks. The homework should be regarded as take-home tests: It should be all your own work. You should not discuss the homework problems with other students but only with me (You are however encouraged to discuss the mathematics in the course with the other students.). The homework must be done neatly with explanations given clearly.

**Advice:**

1. **Keep up with the course on a day-to-day basis.**
2. **Don't hesitate to bring your mathematical questions to me. You don't have to restrict yourself to my formal office hour time.**
